

Notice of Price Revision

September 7, 2026

Graviton Inc.

Dear Valued Customers,

We would like to extend our sincere gratitude for your continued support and patronage. In recent years, we have faced significant increases in the cost of raw materials, components requiring painting, electronic parts, semiconductors, logistics, and energy. Consequently, it has become increasingly difficult for us to maintain our current pricing structure.

Despite our continuous efforts to streamline operations and reduce costs to absorb these impacts, the current market environment has made it impossible to offset these rising expenses through internal efforts alone.

Therefore, we regret to inform you that we will be revising our product prices.

We deeply apologize for any burden this may place on you.

We remain fully committed to maintaining and improving the quality of our products and services to ensure a stable supply. We highly appreciate your kind understanding regarding these circumstances.

Applicable Products

1. All electronic and optical system products manufactured by Graviton Inc.
2. All optical products manufactured by Graviton Inc. (such as optical couplers)
3. Other products distributed by Graviton Inc. (such as optical fibers and power supplies)

Please note that the revision rate varies by product.

For specific pricing details, please feel free to contact us as needed.

Effective Date

The revised prices will apply to all estimates issued by us and orders received by us on or after October 1, 2026.

Thank you for your understanding and continued partnership.

Graviton Inc.
